KARACHI: Princely Jets, Pakistan's only chartered jet service provider, has received KCCI Export trophy for exporting aviation services in a recently held award ceremony. This is the first time that KCCI has awarded the export trophy to any private aviation company for earning foreign exchange through its charter services. Princely Jets operates in Middle East, Europe and Africa. It began as a domestic business jet operator, but expanded to provide international chartering, sales and purchase expertise, aircraft management and maintenance services consultancies. It started its operations in 2005 and has a fleet of 8 aircraft. To support this expansion, Princely Jets has set up an operating base at Karachi international airport and is currently constructing a hangar and state-of-the-art maintenance workshop.
